Amrita Kadam

Indian Institute of Information Technology Raichur

Email: amrita0205kadam@gmail.com — Phone: +91-8904220942

Education

CSE (Computer Science and Engineering)
Bachelor of Technology (BTech)
Current CGPA: 8.77
Expected Graduation: 2027

Courses

ITP(Introduction to programming), ICS(Introduction to Computer Science), DLD(Digital Logic Design), DSD(Digital System Design), Introduction to AI(Artificial Intelligence) and DS(Data Science), Introduction to Object-Oriented programming, IDP(Independent Project)

Projects

1. STUDENT PORTAL
GitHub link: STUDENT PORTAL
A platform that helps students organize their schoolwork, events, announcements, and includes a simple group chat for the admin (Class Representative) to make some decisions. The portal supports a wide range of functionalities to enhance the student experience.

Technologies Used:

CSS, JS, Node.js, Express.js, EJS, MongoDB

2. PACMAN Game
GitHub link: PACMAN Game
A terminal-based Pacman game using file handling in C++. The game features classic game play with user interaction via the terminal.

Technologies Used:

C++

3. Basic CHAT(Web-page)
GitHub link: CHAT web page
A web page that connects the users, enables real-time chat, and stores the message in the database. It's just a mini project that can be integrated with many other technologies.

Technologies Used:

EJS, CSS, Node.js , Express.js, MongoDB , Socket.io (JS library)

Skills

C, C++, Python, HTML, CSS, JavaScript, Node.js, Express.js, MongoDB

Interests

Currently Exploring

Web Development, App Development, Competitive Programming

Future Exploration

Artificial Intelligence, Blockchain Development, Quantum Computing
